

# RAZOR TRACKING

## Embedded Vehicle Data

Vehicle Insights Direct from the Manufacturer

**Razor Tracking** now delivers real-time fleet visibility with Embedded Vehicle Data directly from the manufacturer. Get OEM-grade insights for your entire mixed fleet—all in one easy-to-use platform.

With a streamlined, ready-to-go experience from day one, your team can hit the ground running. A clean, installation-free experience from day one and a great way to manage your mixed fleet all in one place.

With OEM Embedded Data, every vehicle in your fleet is visible, protected, and performing at its best. Spend less time worrying about downtime, maintenance, and compliance, and more time keeping your operations moving.
