

DASH CAMERA ELITE

- High Definition Camera
- GPS Tracking
- Easy Installation
- Real-Time Tracking
- Road and Cabin-Facing Cameras

The Elite Dash Camera from Razor Tracking provides unparalleled visibility into your remote operations by improving driver safety, security, accountability, and productivity. The Elite Dash Camera has built-in road and cabin-facing wide-angle lenses with GPS tracking that pings every 2 seconds. Razor Tracking stores all trip data, including videos, critical events, time, and locations, so even later on you can always refer back to what happened.

Take the worry out of safety and security. The Elite Dash Camera is on the lookout for your vehicle at all hours, informing you if there's any sign of trouble. Whether it's being driven on the road or parked at night when the engine is off, you can have a live camera preview.
